

## ANNEX IV

### Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** Satellite Event-Driven UCITS Fund - Merger Arbitrage (the "Fund")

**Legal entity identifier:** 222100JK5KF9PRIHDT27

#### Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective

☒ ☐ **Yes**

☐ It made **sustainable investments with an environmental objective:** \_\_\_\_%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective:** \_\_\_\_%

☒ ☐ **No**

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_\_% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund takes sustainability risk and environmental, social and governance ("ESG") characteristics into account as part of its investment selection process.

#### Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

These characteristics have been studied, monitored and rated by the research and investment team, as well as the risk management team.

The three characteristics chosen by the Fund are the following :

1/ Top management role separation (separation of the role of Chairman & CEO)

2/ Disclosure of Carbon emissions (Scope 1, 2 & 3) and targets of reduction of these emissions

3/ Gender diversity amongst employees (i.e more than 40% of women within the company).

The performance of those indicators are:

1/ Top management role separation (separation of the role of Chairman & CEO)

The separation of power between the role of Chairman & CEO was one of the ESG subject central to the research team in the Fund for the different companies in the portfolio. This metric positively evolved year on year with 57% of the companies in the Fund having an effective separation of Chair & CEO roles.

2/ Disclosure of Carbon emissions (Scope 1, 2 & 3) and targets of reduction of these emissions

43% of companies in the portfolio disclose their scope 1, 2 & 3.

67% of them showed an improvement of their scope 1, 2 & 3.

Also, 100% of companies in the Fund committed to reduce their carbon emissions, and succeeded in maintaining or improving their target to reach net zero emissions (with different time horizons ranging from by 2030 to 2050).

3/ Gender diversity amongst employees (and more than 40% of women within the company)

86% of companies in the portfolio disclose the percentage of women in the workforce. 50% of them showed an improvement in the percentage of women in their workforce.

And 71% of companies have more than 40% of women in the workforce.

● ***...and compared to previous periods?***

N/A

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A

*How were the indicators for adverse impacts on sustainability factors taken into account?*

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### **How did this financial product consider principal adverse impacts on sustainability factors?**

From a regulatory standpoint, CIAM Fund does not take into account principal adverse impacts on sustainability factors. But the Fund takes into account certain adverse impacts related to E, S, and G matters into its research process, such as GHG emissions, Carbon Footprint, GHG intensity, Fossil Fuel sector, Board gender diversity, Gender Pay gap, Exposure to controversial weapons, etc.

This is shown through sectorial screenings done by the Fund in order to exclude sectors from the investment universe on the basis of specific criteria. Some exclusion criteria are based on income from unwanted activities; for example, the extraction of coal in order to produce electricity; else on the nature of the activity such as for the extraction of unconventional oil and gas, pornography, weapons, gambling, activities dangerous to health such as tobacco. The Fund also excludes Critical controversies that are Non Communicative (as per the denomination at Vigeo-Eiris/Moodys) i.e not addressed by the management of the company. And last the Fund excludes the worst 15% of the proprietary ESG Scorings from the initial investment universe of the Fund.

Last, the Fund also has a stewardship & Engagement policy, engaging on the topics mentioned above.

### What were the top investments of this financial product?

| Largest investments          | Sector                         | % Assets | Country       |
|------------------------------|--------------------------------|----------|---------------|
| FIRST HORIZON NATIONAL CORP  | Banks                          | 9.75%    | UNITED STATES |
| ALTRA INDUSTRIAL MOTION CORP | Capital Goods                  | 9.73%    | UNITED STATES |
| STORE CAPITAL CORP           | Equity Real Estate Investment  | 9.72%    | UNITED STATES |
| MERIDIAN BIOSCIENCE INC      | Health Care Equipment & Servic | 9.70%    | UNITED STATES |
| ACTIVISION BLIZZARD INC      | Media & Entertainment          | 4.86%    | UNITED STATES |

### What was the proportion of sustainability-related investments?

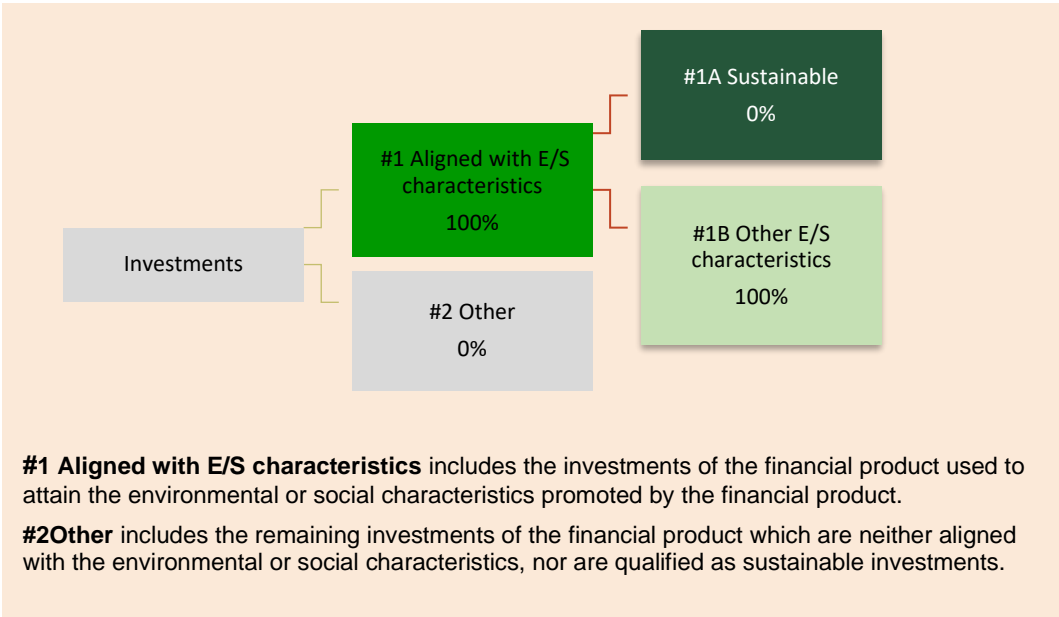

#### ● What was the asset allocation?

**Asset allocation**  
describes the  
share of  
investments in  
specific assets.

The Fund uses a systematic selection of officially announced transactions (systematic merger arbitrage) with a limited discretionary overlay to generate uncorrelated returns to equity markets. The investment universe consists essentially of listed companies on the main European and American stock exchanges.

#1 Aligned with E/S characteristics : 100% of the fund's investments have an ESG Scoring and are intended to achieve the characteristics environmental or social that it promotes, in accordance with the binding elements of the investment strategy.  
 “#2 Other” : none of the investments corresponded to investments that were outside the scope of minimum limit of 90% integrating environmental and social characteristics.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period as of 30/12/2022

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● *In which economic sectors were the investments made?*

Investments were made in the following economic sectors :

|                         |     |
|-------------------------|-----|
| - Healthcare Equipement | 27% |
| - Capital Goods         | 18% |
| - Real Estate           | 18% |
| - Banks                 | 18% |
| - Media & Entertainment | 9%  |
| - Financial Services    | 9%  |

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*\*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures*

N/A  
CIAM Fund doesn’t currently have investments aligned with the EU Taxonomy.

● What was the share of investments made in transitional and enabling activities?

N/A

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

“#2 Other” : none of the investments corresponded to investments that were outside the scope of minimum limit of 90% integrating environmental and social characteristics.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

### 1/ Engagement

During 2022, as the Fund was in a ramp-up phase, very few engagements took place. Further developments will be made in the course of 2023.

### 2/ Voting

During 2022, the Fund voted on 100% of the positions in which it holds voting rights. And in particular on governance, environmental and social matters.

**J** are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

## How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*

Currently, no index has been designated as a reference benchmark.

- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

N/A

- *How did this financial product perform compared with the reference benchmark?*

N/A

- *How did this financial product perform compared with the broad market index?*

N/A

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
